Zepto announces Primary Pre-IPO Private Placement.

Zepto Limited has agreed with major shareholders to close a Pre-IPO Private Placement of Equity ahead of its planned listing.

This Pre-IPO financing will add to the company's strong balance sheet (5,681 Crores of Cash with no debt as of March 31st, 2026).

As part of the IPO process, the Board and Founders have received terms from public market investors to list the company and are appreciative of the expressed interest. However, at this time, and afforded by the company's strong balance sheet, Zepto will focus on continued execution.

The company will update its DRHP filing for the operating results and financials in the coming quarters and intends to list within the timeframe provided by SEBI for its approved UDRHP.

Zepto's Management team looks forward to completing the listing and partnering with public market investors on the next chapter of the company's journey.

Until then, it is heads down execution!
